

CARMEN MIRNA IBAÑEZ SANGUINO

Trinidad, Bolivia • +591 73925782 • cibanezsanguino@gmail.com • github.com/carmenmirna-is

Results-driven Systems Engineer with solid expertise in full-stack web development, data analysis, and system modeling. Proven experience in institutional IT support, database management, and process optimization utilizing Python, Django, and PostgreSQL. Adept at technical troubleshooting, cross-functional collaboration, and applying agile methodologies to solve complex technical challenges. Committed to continuous learning and implementing efficient, scalable technological solutions.

PROFESSIONAL EXPERIENCE

Full-Stack Development & IT Support Intern 2025

Instituto Tecnológico - UABJB | Trinidad, Bolivia

- Developed and maintained institutional academic web applications, improving system stability and user experience using Python and Django.
- Optimized core technological processes and provided high-tier technical support and hardware/software troubleshooting across the institution.
- Managed and structured relational databases with PostgreSQL, ensuring data integrity, optimized queries, and system architecture alignment.
- Collaborated within multidisciplinary teams to gather requirements, deploy updates via Git/GitHub, and design technical documentation.

EDUCATION

Bachelor's Degree in Systems Engineering

Universidad Autónoma del Beni "José Ballivián" (UABJB) | Graduation Year: 2025

TECHNICAL SKILLS

- **Programming & Frameworks:** Python, Django, HTML5, CSS3, JavaScript
- **Databases & System Architecture:** PostgreSQL, Relational Database Design
- **DevOps & Version Control:** Git, GitHub, Docker, System Deployment
- **Data Analysis & Modeling:** STELLA, SPSS, Power BI, Advanced Excel, System Dynamics

LANGUAGES

- **Spanish:** Native proficiency
- **English:** Upper-Intermediate (B2) – Professional working proficiency
